

Sandhiya Ravi Kumar

UI/UX Designer

+91 9342386742 | sandhiyakr334@gmail.com | LinkedIn | GitHub | Portfolio

Professional Summary

UI/UX Designer with hands-on experience in **user research, wireframing, prototyping, usability testing, and responsive interface design**. Skilled in creating intuitive digital experiences using Figma and translating designs into responsive front-end interfaces using **HTML, CSS, and JavaScript**. Passionate about designing user-centred products that improve usability and business outcomes. Strong collaborator with excellent analytical and problem-solving skills.

Education

Master of Computer Applications (MCA)	2024 - 2026
Anna University	CGPA : 8.1
Bachelor of Computer Application (BCA)	2021 - 2024
M.O.P Vaishnavi College for women	CGPA : 7.1

Technical Skills

- **UI/UX Design:** User Research, Wireframing, Interactive Prototyping, User Flows, Information Architecture, Responsive Design, Design Thinking, Usability Testing.
- **Frontend Development:** HTML5, CSS3, JavaScript, Responsive Web Design.
- **Programming Languages:** Java.
- **Tools:** Figma, FigJam, Canva, Picsart, Git, GitHub, Visual Studio Code, Eclipse
- **Professional Skills:** Problem Solving, Analytical Thinking, Communication, Team Collaboration, Time Management

Professional Experience

AI/ML Intern **January 2026 – March 2026**

Tech Mahindra | Chennai, India

- Worked with **RAG, NLP, Vector Databases, and Apache Kafka** for AI and data-processing applications.
- Developed **RAG pipelines** using **Hugging Face and Gemini API** for chatbot applications.
- Applied **NLP techniques, document retrieval, vector search, and hybrid search** to improve chatbot responses.
- Participated in **technical knowledge-sharing sessions**, contributing ideas and insights during team discussions.

Web Development Intern **May 2023 – June 2023**

Inovera InfoTech | Chennai, India

- Developed **responsive web pages** using **HTML5, CSS3, and JavaScript**.
- Built the **7 Wonders website** using a **mobile-first and responsive design** approach.
- Optimized front-end implementation for better **website performance and responsiveness**.
- Collaborated with the development team to implement **project requirements and web solutions**.

Projects

SMBC Next-Gen Mobile Banking & ESG Fintech App | *Figma*

- Conducted **user research and surveys** to identify pain points and challenges in existing mobile banking applications.
- Designed an end-to-end **mobile banking experience** with three key services: **Global Transfers, Student & Young Professional Banking, and ESG Green Savings**.
- Created user flows and high-fidelity UI for **international transfers, tuition payments, bill splitting, and green savings features**.
- Developed an interactive **Figma prototype** using **Auto Layout, Components, Variants**.

UI/UX Design Project | *Figma*

- Designed multiple **web and mobile UI/UX projects in Figma** to develop skills in user flows, wireframing, prototyping, and visual design.
- **GPay UI Recreation**: Recreated key screens and interactions to practice **Figma components, Auto Layout, and interactive prototyping**.
- **Movie Ticket Booking App**: Designed a simplified booking flow that completes the movie selection and booking process in **under 4 steps**, focusing on usability and efficiency.
- **Donut Scrolling Website**: Created an animated scrolling prototype to practice **Figma interactions, animations, and prototyping**.
- **Shop Opening Promotional Posters**: Designed promotional posters focusing on **visual hierarchy, typography, layout, and branding**.

Campus Assist AI Chatbot | *Python, Flask, MySQL, Gemini API, Hugging Face, NLP*

[GitHub Link](#)

- Developed an AI-powered chatbot to provide instant responses to campus-related queries, including admissions, courses, fees, placements, and hostel facilities.
- Implemented a **Retrieval-Augmented Generation (RAG)** pipeline using Hugging Face and Gemini API to deliver accurate, context-aware responses.
- Integrated **Flask** with **MySQL** for efficient data management and chatbot functionality.
- Applied NLP techniques and document retrieval methods to improve response relevance and user interaction.

Java Object-Oriented Programming (OOP) Projects | *Java*

[GitHub Link](#)

- Developed **Payroll Management, Banking Management, and Vending Machine** applications using Object-Oriented Programming (OOP) principles.
- Implemented core OOP concepts including **Encapsulation, Inheritance, Polymorphism, and Abstraction** to create modular and reusable applications.
- Designed interactive console-based applications with input validation, exception handling, and business logic implementation.
- Improved code maintainability through structured programming and reusable class design.

Certifications

- **Java Programming & Object-Oriented Programming (OOPs)** – MindLuster
- **GitHub for Developers** – LinkedIn Learning
- **Microsoft Office Professional (MS Office)** – WinSoft
